Mr. Gary furnished two pens, four black and four buff Orpingtons; E. L. Finch furnished one pen containing two barred Plymouth Rocks, a pair, and J. P. Some fellow, or fellows, who either has a grudge against the city officials or else wanted to destroy the old building so that a new one might be built, placed a stick of dynamite under the northeast corner of the old city building, last Wednesday night, about 9 o'clock, and tried to blow the shack to kindling wood. The explosion tore off some of the weatherboarding, knocked down a prop or two on the outside stairway, but did no great damage, but just the same, whoever was guilty of the act has laid himself liable to criminal prosecution which, if he be apprehended, will send him to Jeff City for a term in the pen.

Sheriff O'Neal made the discovery last Saturday morning that George Eastham, who is in jail awaiting trial for murder, was planning to escape. The Sheriff had an inkling that something unusual was in the wind, and went in and made a search of the cells. The search resulted in finding four of the bars of one of the windows cut so that they could easily be pushed apart and an opening sufficiently large made to let a person crawl through. A thorough search of the cells revealed a new nicked saw frame and three fine steel tempered saws for doing just such work. The frame was found concealed in Eastham's bed and the saws in cracks of the cell floor. The saw outfit was new and had evidently been recently passed into the jail to him by some party from the outside, the tools most likely having been tied to a long stick and put through the bars of the window so that he could get them. It was a lucky discovery, for if it had not been made when it was, Eastham would, in all probability, have made his escape.

Rev. Clarence Burton, of Poplar Bluff, was in Doniphan Monday. He is very full of his work as usual. He hopes to build a new church at the Bluff during his stay there, and we believe he will realize his hopes. We hope so too.

All the Northwest, Iowa, Nebraska, Kansas, the northern and western part of this state, Oklahoma, New Mexico and a good part of Texas. At some places in the Northwest the mercury went as low as 14 below zero.

Death of W. H. Perkins.

William Howcutt Perkins, father of Attorney Alfred Perkins, died suddenly last Monday night, November 19, on the stroke of 12 o'clock. On the Friday preceding the deceased had been taken with severe pains in the abdomen, but would not give up, continued at work until about noon Saturday, when Dr. Proctor after an examination, decided that he was suffering from appendicitis, and as the suffering continued stated that an operation, performed as soon as possible, would be the only means of relief. At first the old gentlemen would not consent but finally gave up and asked that it be done, and Sunday evening Dr. Proctor, assisted by Drs. Redwine and Hume, of this city, and Waddell, of Success, performed the operation. They found that all of the section included in the region of the appendix was inflamed and that an adhesion in the intestine, had occurred so that peritonitis had set up. The operation was successfully performed, inflammation having also taken place in the appendix. The old gentlemen went through the operation in good condition and got along very nicely. Even at 8 o'clock the night of his death he spoke of feeling very well, and no serious symptoms were manifest in the case. Later in the evening a change took place and he grew rapidly worse and passed away at midnight, peritonitis being the immediate cause of his death. The deceased gentleman was a native of England, having been born at Arnesby, Leicestershire, on October 11, 1839, on a farm that has belonged to the Perkins family for several hundred years. He was married June 4, 1863, and for several years after was engaged in business in London. While thus engaged he became involved financially and retired from business, moving to the island of Jersey, from London, and lived there until after his business affairs were straightened out. He then came to the United States, landing at New York on November 1, 1883, and came to Ripley county, Missouri, direct, arriving here November 10, 1883, and shortly after purchased the farm on Buffalo where he lived ever since, until he moved to this city, about a month ago, on October 10, 1906. His age at his death was 67 years.

The funeral was held yesterday morning at the Presbyterian church, at 10:30, Rev. H. D. Maness, reading the service of the Episcopal church, the deceased being a member of that religious body. The interment was made at Oakridge. He leaves a widow, one son and a daughter. He was an excellent citizen and highly respected by all his acquaintances.

ARBUCKLE'S ARIOSA COFFEE

GAVE THEM ABUNDANCE AND THE POWER THAT TURNED THE WILDERNESS INTO THE GREATEST RICHEST COUNTRY THE SUN SHINES UPON

SAID IN SEALED PACKAGES ONLY FOR YOUR PROTECTION

"For over thirty years," writes a gentleman in Los Angeles, "I have used Arbuckle's Coffee. Many times my family has tried other coffee only to come back to our old reliable, unchangeable Arbuckle's. No other coffee has this uniform never failing aroma, I care not at what price. I have often wished I could tell you this." Many other people have the same opinion. Arbuckle's was the first roasted packaged coffee, and its sales exceed all the others put together.

That it costs you less is due simply to our coffee business being so much greater than any competitor, in fact, it is larger than the next four largest firms in the world combined. We naturally can and actually do give better coffee in ARIOSA than anyone else can give for the price; Being the standard article it is sold at the narrowest margin of profit.

Some grocers will try to sell you instead loose coffee which the roaster is ashamed to sell in a package bearing his name.

Don't take it, neither the looks nor the price indicate its cup quality. No matter where you buy Arbuckle's ARIOSA, or what you pay for it, it's the same old uniform Arbuckle's ARIOSA Coffee.

If your grocer will not supply, write to ARBUCKLE BROS., New York City.

SCHOOL NOTES.

Prepared by Supt. E. M. CARTER.

PRIMARY SCHOOL COMMENT.

Attendance good.

Miss May Scott taught the fourth grade last week.

Three new pupils in the second and one in the fourth.

The pupils of the third grade enjoyed a half holiday Friday.

The pupils of the first and second grades are very much interested in the weaving of Indian mats.

Our former principle, W. D. Stancil, spent a short time with each grade Monday morning.

The pupils of the first and second grades will give a short Thanksgiving program on Wednesday, Nov. 28. Parents and friends are invited to be present.

SIXTH AND SEVENTH GRADE.

Henry Catlin is a new pupil.

A few weeks ago Bro. Coker visited our room and told us a very interesting little story of the Rivulet. To the one reproducing the best sequel to the story he offered a prize. Papers were handed in on Nov. 7. After a careful examination of the papers it was decided that Fay Gary, in the seventh grade, had the best paper. We certainly do appreciate the encouragement shown by Bro. Coker.

Success in school work simply means doing each day's work and doing it well. Do not put off till to-morrow what should be done to-day.

The Senior class continues its excellent record for attendance and punctuality. In fact all classes are doing especially well along these lines.

It is the desire of the Board of Education that all the eight grade pupils in the county enter the contest for the high school scholarships—value \$180.

Bulletins will be sent out next week to all the 8th grade pupils in the county announcing the offer of four free scholarships by the Doniphan Board of Education.

Death Of Bettie Mitchell.

Miss Bettie Mitchell, the 12-year old daughter of Robert Mitchell, who lives near Flatwoods P.O., about nine miles east of town, and who was so severely burned, by her clothing catching on fire while standing in front of the fire place, at home about two weeks ago, died from the effect of the injuries received from the burns, about 9 o'clock last Tuesday night. She inhaled some of the flames at the occurrence of the accident and while hanging with great tenacity to life, was not able to survive the internal injuries from the burns.

The Grand Clothing House

Schwab St. Louis.

"It's not the price you pay but the value you receive that constitutes a bargain."

For a Fall or Winter Suit or Overcoat.

See that your garment is made right. What is the use of buying a garment that has poor trimming and lining. It's like buying a brick house with a wooden foundation. If you don't consider it important to have your clothes made right, then you might as well buy the cloth alone and let your wife or sister make your clothes. We feel certain they will make them better than good many garments offered for sale. We've got the clothes you should wear. They are tailor-made and designed by experts—made in the sanitary shops of Schwab, St. Louis. Ask to see their \$15 Special Suit. In our line of Overcoats and Cravattes we have a nice selection and our prices are constant with quality.

In our Shoe line, since adding the Walk Over line in our fine shoes, we have found it to be a success. We desire to state to all who desire anything in the Walk Over line if we have not in stock we will order any kind they make both in size and last and have them here as soon as the Company sends them.

To our selection of Caps and gloves, we desire to call your attention. An early selection before the lines get broken is preferable.
